Ochkur, A. P.
ELECTRIC LOGGING FOR DENSITY. [1961] [10]p. 2 refs.
Order from OTS or SLA $1.10 61-27256

Trans. of Voprosy Rudnoi Geofiziki (USSR) 1957, v. 1, p. 62-68.

DESCRIPTORS: *Well logging, *Geophysical prospecting, *Rock, Density.

A new method of geophysical exploration in boreholes is briefly described, electric logging to determine the density of rock, initially suggested by M. M. Sokolov and developed under his guidance by the author with the assistance of N. I. Karabanov. The method is based on the existence of a definite relationship between the scattering of gamma radiation and the density of rocks. (Earth Sciences--Geology, TT, v. 6, no. 11)

Bogolyubov, N. N., Medvedev, B. V., and Polivanov, M. K.
THEORY OF DISPERSION RELATIONS, tr. by S. G. Bruin. [1961] 200p. 35 refs.
Order from OTS or SLA $13.50 UCRL Trans-499(L)

Trans. of mono. Voprosy Teorii Dispersionnykh Sootnosheniĭ, Moscow, 1958, 200p.

DESCRIPTORS: *Quantum mechanics, *Particles, *Scattering

We conceived and sketched out this monograph in 1956 as a detailed exposition--resembling in style more a textbook than a scientific paper--of the methods of dispersion relations, and the closely related questions of the spectral representation of Green's functions. In particular, the central point--the proof of the existence of dispersion relations for the scattering of π-mesons on nucleons--was announced by one of us (N. N. B.) at an international conference in Seattle, in September 1956. (Author)
